Published Author - How to Publish a book

Amazon kindle, Smash words, Create space, website

www.MasterBookPublishing.com

Here's the simple process we'll be taking for each of our Kindle books we publish:

1. Find a niche topic to write on. One that gets searched a lot, yet has little competition.
2. Choose 7 keywords you want to rank at the top of Amazon for. These need to be highly searched, low competition words.
3. Write the book yourself OR have it written by someone else. I always have it written by someone else for cheap.
4. Publish your book to Amazon
5. Rank highly for the keywords you selected in step 2 above
6. Make money. People find your book by entering 1 of those 7 keywords. They buy your book. Amazon notices you're a valuable book so THEY start promoting you all over their website. You make more money. You need to rank highly and make some initial sales through that, or Amazon won't start promoting you, and you'll be at a standstill. Ranking highly is **critical.**
7. Repeat steps 1-6 on another book.
